

Zoli Grace Smith, BA

zgsmit2@emory.edu

(202) 815-7563

EDUCATION

Johns Hopkins Medicine, Baltimore, MD

PhD Student, Health Science Informatics

Expected May 2030

Emory University, Atlanta, GA

MPH, Epidemiology

Expected May 2026

- **Thesis:** Time-to-Event Analysis of Hormone Therapy Initiation and Cardiovascular Outcomes by Testosterone Dose and Route
- **Relevant Coursework:** Statistical Methods I–II, Epidemiologic Methods I–III, Design & Implementation of Epidemiologic Studies, Applied Machine Learning, Large-Scale Biomedical Data Analysis, Genetic/Molecular Epidemiology

Spelman College, Atlanta, GA

B.A. in Psychology (Minor: Spanish)

Summa cum laude, Graduated May 2024

- Top 5 Graduate; Ethell Wadell Githii Honors Scholar
- **Undergraduate Thesis:** Strong Black Woman Schema and Emotional Overeating

CERTIFICATIONS

CITI Certification

Basic Course in Human Subjects Protection (Social/Behavioral Focus), August 2024

RESEARCH EXPERIENCE

Emory University, Atlanta, GA

Single-Cell Genomics Research Assistant

Principal Investigator: Dr. Chang Su, October 2025 - Present

- Analyze single-cell multi-omic data using SCARlink, a regression framework linking chromatin accessibility and gene expression
- Investigate enhancer–gene interactions and transcriptional regulation in Alzheimer’s disease
- Identify disrupted regulatory networks contributing to neurodegeneration

MPH Thesis — STRONG Cohort, Emory University

May 2025 – Present

- Conducting time-to-event and causal inference analyses of EHR data for cardiovascular outcomes associated with testosterone therapy
- Build reproducible analytical pipelines, bias analysis, and missing data management
- Apply survival models, DAGs, and data cleaning workflows to real-world clinical data

Morehouse School of Medicine, Atlanta, GA

Research Fellow — Summer Cancer Research Education Program (SCREP) June 2025 – August 2025

- Retrospective cohort study of ~300 lung cancer patients reflective of the Grady Health System
- Used chi-square tests and logistic regression to assess disparities in staging and subtype
- Presented results at the Cancer Research Symposium (2nd Place Award)

DATA SCIENCE & TECHNICAL EXPERIENCE

CARE (Impact Partners), Remote/Atlanta, GA

Data Science Intern

June 2025 – August 2025

- Analyzed baseline and endline survey data from cocoa-sector programs in Ghana and Côte d'Ivoire
- Synthesized quantitative and qualitative evidence into mixed-methods donor reports and supported cross-program data alignment for monitoring and evaluation

Emory University, Atlanta, GA

Data Scientist — DATA 550 GitHub Project

January 2025 – May 2025

- Developed a fully reproducible data science pipeline integrating public health datasets through GitHub, R, and R Markdown
- Built modular scripts for data ingestion, cleaning, transformation, and visualization following version-controlled workflows using branches, pull requests, and issue tracking

PRESENTATIONS

Morehouse School of Medicine, Atlanta, GA

Cancer Research Symposium, Poster Presenter

Second Place, August 2025

- Histological Subtype, Stage at Diagnosis, and Socioeconomic Disparities in Lung Cancer Patients at Grady Health System

Spelman College, Atlanta, GA

Annual Research Day

April 2023

- Presented thesis: Strong Black Woman Schema and Emotional Overeating

PUBLICATIONS

Morehouse School of Medicine, Atlanta, GA

Summer Cancer Research Education Program

August 2025 – Present

- Smith, Z., & Isac, J. *Small-Cell Versus Non-Small-Cell Lung Cancer Among African American Patients: Subtype Distributions and Associations with Smoking and Socioeconomic Status in a Safety-Net Hospital System*. Manuscript in preparation

WORK EXPERIENCE

Emory University, Atlanta, GA

Teaching Assistant, EPI 534

August 2025 – December 2025

- Supported instruction for a cohort of 46 MPH students in a core epidemiologic methods course
- Held weekly office hours, assisted students with R- and SAS-based problem sets, and clarified foundational concepts
- Collaborated with instructional faculty and TAs to grade assignments, provide feedback, and maintain consistency across the course section

Food Fortification Initiative (Emory University), Atlanta, GA

Graduate Research Assistant

September 2024 – May 2025

- Conducted data quality checks and contributed to WHO-aligned meta-analyses and systematic reviews on double-fortified salt
- Collaborated with international fortification experts to generate evidence informing nutrition policy and program evaluation

National Academy of Public Administration, Washington, DC

Fellow Engagement Intern

May 2023 – August 2023

- Updated and maintained internal digital platforms for 900+ elected fellows
- Analyzed member engagement patterns to strengthen organizational communication and participation

Genentech (Hoffmann-La Roche), South San Francisco, CA

Diversity & Inclusion Intern

June 2022 – August 2022

- Partnered with internal communications groups (Asian, African, and Women's networks) to implement inclusive messaging strategies and promote cultural awareness across the finance division
- Supported high-level talent recruitment pipelines in collaboration with global staffing managers

SKILLS

- **Technical:** R, SAS, SPSS, Docker, GitHub, R Markdown, ArcGIS Pro
- **Statistical:** Survival Analysis, Causal Inference, Mixed Models, Machine Learning
- **Data Management:** Multi-omic integration, single-cell analysis, EHR data processing
- **Languages:** Spanish (Fluent)

LEADERSHIP & SERVICE

Emory University, Atlanta, GA

Rollins mHealth Collaborative

President; Former Secretary, September 2024 – November 2025

- Developed workshops in R, SAS, and Power BI, and promoted digital health and data science literacy across the Rollins School of Public Health

Rollins Election Day Initiative (REDI)

Executive Co-Lead, January 2025 - November 2025

- Led civic engagement program (Voter's Day On) to increase voter participation among public health students
